Remember Headquarters

Let us meet at the Cleveland, O., Convention and talk it over. Keep this card as a souvenir of the annual convention A. A. of Nurserymen, and write for trade price list ready Sept. 1st.

Madison, Ohio, June 20th, 1914

TO THE NURSERY TRADE:

Berry Plant and Fruit Growing is my specialty.

I grow the finest quality of plants by the million—graded right, priced right, usual terms. Let me have an opportunity to quote a price on your want list.

Headquarters (Badge 194) for Black Raspberry Plants

Cumberland, Gregg, Kansas and Plum Farmer.

Headquarters (Badge No. 194) for Purple Raspberry Plants

Columbian Haymaker, Royal Purple and Shaffer's Collossal.

Headquarters (Badge No. 194) for Red Raspberry Plants

HERBERT—The best yielder of the finest large berries of all reds.

ST. REGIS—The ever-bearing Red that has made good and has been the biggest seller in a single season for the most money of any Red Raspberry ever introduced. My orders from the trade 1913-14 exceeded 175,000 plants—and the country was searched from coast to coast for more. The earliest Berries are ripe and have been picked this present week. It is the earliest and latest of any raspberry grown. **SO COME TO HEADQUARTERS, (Badge No. 194)**

Eaton Red Raspberry

A great yielder—of more stocky growth than any other Red sort.

Perfection Red Raspberry

Derived its name perhaps, because it makes very few sucker plants.

MARLBORO—One of our best Reds. Also LOUDON, CUTHBERT, EARLY KING and MILLER grown in large quantities.

Yellow Raspberry

The Golden Queen. The best of all Yellows, and I hope soon to offer a NEW YELLOW which propagates from the tips—the same as the black and purple varieties do.

Blackberry Plants

(Root cutting stock) Eldorado, Blowers, Mercereau, Ward, Snyder, Erie, Ohmer, Early King, Early Harvest and Lucretia Dewberry.
